

Project & Programme Management

Planning and control for successful deliveries

Our Approach

CampionPPS deliver successful projects by:

- Providing the best programme and project managers and project specialists
- Injecting the required drive, energy and enthusiasm
- Taking accountability, responsibility and ownership
- Deploying proven tools and techniques
- Providing solutions tailored precisely to the organisation's needs

We balance the use of process with a healthy dose of common sense, recognising that Project Management is as much about strong leadership and team building as it is about Gantt charts and budgets.

The key to success lies in the ability to balance the 'hard' management techniques like schedule control, risk and issue management with command of the 'soft' skills like leadership, relationship building, stakeholder management and change management.

Our Process

Hard Skills

clear objectives
drive the plan
manage the risks
kill issues
drive financials
leverage tools

Soft Skills

leadership
manage politics
manage conflict
team dynamics
communications
vendor relations
